

Bowater-Detailing Pty Ltd

Company Overview

Bowater-Detailing is a specialist industrial and fleet detailing provider, delivering high-quality vehicle and equipment presentation services to mining, civil, and heavy industry sectors. We are recognised for our expertise in red dirt remediation, mine-site compliance detailing, and maintaining asset presentation in extreme operating environments.

Our focus is on reliability, safety, and consistent results that protect asset value and uphold client brand standards.

Core Capabilities

- Mine site vehicle and equipment detailing
- Heavy vehicle, light vehicle, and fleet detailing + cosmetic restorations
- Red dirt, iron ore dust, and contamination removal
- Pre-delivery and handover detailing
- Shutdown, mobilisation, and demobilisation detailing
- Workshop-based and on-site detailing services
- Interior, exterior, engine bay, and under-chassis cleaning
- Compliance-ready cleaning for inspections and audits

Industry Experience

- Mining operations and remote sites
- Civil construction and earthmoving fleets
- Light vehicles, utilities, and passenger fleets
- Commercial and industrial vehicles

Safety & Compliance

- Strong safety-first culture aligned with mining and industrial standards
- Familiar with site inductions, SWMS, and permit-to-work systems
- Use of compliant chemicals and environmentally responsible practices
- Equipment and procedures suited to remote and high-dust conditions

Capacity & Resources

- Experienced detailing personnel
- Commercial-grade equipment and products
- Ability to scale for fleet contracts and shutdown work
- Rapid response capability for urgent or short-notice requirements

Geographic Coverage

- Workshop-based services
- On-site and mobile services
- Regional and remote operations (subject to scope and mobilisation)
